## **GSA SCHEDULE CONTRACTS**

GSA has facilitated the acquisition of commercial services by establishing GSA Schedule Contracts. Under the Federal Supply Schedule program, GSA enters into government-wide contracts with commercial firms to provide products and services at pre-approved prices and for a given period of time. This streamlined procurement approach significantly reduces the time required to obtain services because GSA has reviewed firm capabilities, negotiated rates, and pre-qualified firms to provide services.

The advantages of the Schedules program include:

- Reduction in time required to obtain services (usually a few weeks).
- Commerce Business Daily synopsis is not required.
- Competition requirements have been met (FAR 6.1023(d)(3)).
- Rates have been determined to be fair and reasonable.
- Can be used by all federal agencies and the District of Columbia.
- Agencies can order directly from the contracted firm – no transfer of funds to GSA.
- No maximum order limitations.
- BPAs can be used to customize your solution.
